A Novel Low-Temperature Preparation of Ultrafine Nickel-Zinc Ferrites and Their Magnetic and Mössbauer Characterization

T. Pannaparayil, R. Marande and S. Komarneni

J. Phys. Colloq. France **49** (1988) C8-947 to C8-948.

On p. C8-948, *add* to the caption of figure 2:

The Mössbauer Spectra are qualitative for which no spectral parameters are reported. They serve only to show the transition from superparamagnetic to multidomain behavior.
