High T_c superconductivity by quantum confinement

A. Bianconi and M. Missori

J. Phys. I France **4** (1994) 361-365

The following misprints which where in the manuscript have to be corrected

- (1) page 361 in the text, $\lambda_p = 4.65 \text{ \AA}$ should be read as $\lambda_p/a = 4.65 \pm 0.1$, where $a = 5.4 \text{ \AA}$.
- (2) page 362 in the text, $L/a = \lambda_p(N_{\text{long}}/N_{\text{tot}})$ should be read as $L/a = \lambda_p/a (N_{\text{long}}/N_{\text{tot}})$
